It is especially applicable to all kinds of architectural decorations and mouldings, fountains, balustrades for terrace walks, vases, and pedestals, &c. &c.; also for all varieties of plain and ornamental flooring. In price it is far below the cost of any natural product, and, in many cases, can be furnished as low as ordinary cement. PURE WHITE ZINC PAINT.—Manufactured from the Vieille Montagne Company's white oxide of zinc; perfectly free from all poisonous qualities, is unaffected by sea water, sulphureted hydrogen, or any of the gases, and preserves its original colour where white-lead paint will not. Also Grey Zinc Paint, strongly recommended for iron work.—Sold wholesale by JOHN WARNER and SONS, 8, Crescent, Jewin-street, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—This elegant white, the favourite pigment of the aristocracy, has been used by artists through successive generations, and is still known to the members of the Royal Academy under the old name of Permanent White.

Three years since the proprietors placed their manufacture on a large scale, and offered it at a price to compete with White Lead.

The successful introduction of this paint, and its confessed superiority over every other paint hitherto known, brought forward various imitations.

These inferior productions, frequently made from zinc ores, containing sulphur, lead, arsenic, and other deleterious material, affect injuriously the health, delicate in body, and reduced the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is all the same.

HUBBUCK'S paint is entirely free from any injurious properties whatever. It is healthful in the manufacture, healthful in use, and healthful in occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON PATENT,"

and if the cask has not been so marked, the reason is obvious.

A Circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE PATENT WHITE ZINC PAINT, from the Vieille Montagne Zinc Mining Company.—The Company having become Proprietors of all rights and patents of the late Patent White Zinc Company, in France, and Belgium, is prepared to furnish, on a large scale, the WHITE OXIDE OF ZINC, in a pure state, and of a quality which can only be manufactured with the zinc from the mines in Belgium. Patent White Zinc Paint is superior, in every respect, to white lead paint. It is entirely free from all poisonous influences and is unaffected by sea water, sulphureted hydrogen, or any gases; besides, it preserves the original colour, which White Lead Paint does not. White Zinc Paint causes none of those ravages, invariably engendered by white lead, upon the human frame; neither painters' colic nor paralysis, &c. &c., to which dangerous complaints the workmen, who manufacture and use it, are subject, and to which persons who inhabit newly-painted apartments are also liable. A superfine article having been introduced in the market, under the name of White Zinc Paint, the public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first-rate one.—For further particulars and prospectuses, apply to Mr. H. F. SCHWOLL, General Agent for England and Scotland, at the Company's Offices, 15, Manchester-buildings, Westminster-bridge; and for supply of material and prices, at Messrs. CHAS. DEVAUX and CO.'S, 63, King William-street, City.
